Economic value generated and distributed

Bearing in mind different stakeholder interests, CLP emphasises value creation over the long term, and does this in a way that helps serve the communities in which it operates.

GRI reference: 201-1

One way to understand this emphasis is through the value created and distributed by CLP to different stakeholders. In 2023, 90.3% of the economic value generated by CLP was distributed to stakeholders, including employees, partners, capital providers and the community at large.

- 1 Includes share of results (net of income tax) from joint ventures and associates netted with earnings attributable to other non-controlling interests, which represented CLP's share of economic value created together with its business partners.
- 2 Includes impairment of energy retail goodwill of HK\$5,868 million.
- 3 Another HK\$1,673 million of staff costs incurred were capitalised.
- 4 Finance costs are netted with finance income and include payments made to perpetual capital securities holders. In addition, finance costs of HK\$614 million were capitalised.
- 5 Represents current income tax but excludes deferred tax for the year.
- 6 Represents earnings attributable to shareholders (before depreciation, amortisation and deferred tax) for the year retained.
